

*DiMare Design is Certified Cruelty Free and was recently named one of Dering Hall's Pro Designers!*

# SWEET SPOT

It's a great season to start springing for compassionate décor.

by DEBORAH ROSENBERG

**A** leader in cruelty-free vegan design and wellness/sensory interiors, Deborah Rosenberg is the founder of the design firm DiMare Design and Ddigz.com — an online interior design service for the budget minded.

An animal lover, Rosenberg makes use of luxury faux fabrics and sustainable materials, replacing the skins, furs and feathers traditionally used in luxury interior design. "Vegan design is spiritually and physically positive," she says.

With spring in full swing, show your home off with a mission: adopting humane décor. Let your furniture show you have heart, as well as impeccable taste. •

where to buy •
